Those not responding are Midwestern University (AZ), MCPHS University (MA), Salus University PCO (PA), Inter American University of Puerto Rico, and University of Houston.

Dr. Ashley reported on genetic testing by Doctors of Optometry. Request from Mr. Chris Lewis of the Jasos group was tabled at the last meeting. After discussion, Board requested that Dr. Smalling check with other Boards on their policy on genetic testing at the ARBO meeting in Atlanta March 7 and report to the Board next meeting. By common consent this issue was tabled again.

The response letter from Dr. Thomason was reviewed, and he reported that the issue had been resolved. The Board office has received no further information from the OIG.

Mr. O’Dwyer reported the fingerprinting of applicants by the FBI for licensure is not allowed with the present wording in our statues/regulations. He recommended getting the proper language from FBI and incorporate that into our statues/regulations.
