## 2024 ESO Annual Conference

Register [here](#)

The new patient registry product developed by ESO was released to beta testers this year which will be utilized to generate the patient trauma registry data starting from QTR 1 2024. At the meeting, ESO will set up booths for product demo. If you want a sneak peek, make plans to be in Austin, TX next spring.

### Mid-Year Update for v5 Central Site

Recently ESO has implemented the mid-year update for the Arkansas Trauma Registry Central Site. These are some highlights:

1. Addition of new field “Organ Donor” under the tab Outcome/If Death.
2. Addition of new fields “Mental Health Screening Performed”, “SBIRT”, and “SBIRT Intervention” under the tab ED/Resus/Labs/Screenings/Toxicology.
3. Addition to Providers/Resus Team-Provider Type menu, Providers/In-House Consults-Provider Type menu.
4. Addition to Outcome/Initial Discharge-Discharge To menu.
5. Addition to Procedures/Procedure Location menu.
6. Addition of new validation check that “Direct Admit” field must be valued.
7. ICD-10 coding changes.

### End of Year Change

We have submitted the state compliance change lists to ESO for 2024 system update. The state changes include the fond changes to the field name, EMS agency and facility updates, and logic errors with ED disposition, hospital discharge disposition, and receiving facility, etc. Also, we again requested ESO to add the new data element “Transferred for Organ Procurement” since ESO missed it in this year’s update.

### AIS 2015 Upgrade and AIS15 Course

The Arkansas v5 trauma registry system will be upgraded to the AIS 2015 version on 1/1/2024. All hospital trauma staff who work on the data entry of the AIS code are required to finish the appropriate training of AIS15 course provided by AAAM by December 31, 2023. Please visit the [AAAM website](#) to find the course description and schedule. If you have not registered for the course, please do so as soon as possible.

### Data Submission and Validation

The QTR 2 2023 Data Submission Report has been distributed to hospitals. Thank you for your timely submission.

We have completed the QTR 1 2023 Data Validation Report for all hospitals. Overall, the error rate has dropped 74% after corrections were made.

### NTDS and ATR 2024 Data Dictionary

American College of Surgeons has released the NTDS 2024 Data Dictionary. You can download the document along with the NTDS 2024 Change Log [here](#).

Currently, we are compiling the ATR 2024 Data Dictionary. If you have any suggestions or comments, please feel free to contact us.
