1.1 PURPOSE

The Arkansas Department of Health (ADH) issues this Request for Application (RFA) to obtain applications for funding to provide STI and/or Tuberculosis (TB) intervention services.

1.2 BACKGROUND

The Arkansas Department of Health (ADH) aims to address innovations and advances pertaining to the incorporation of diversity, inclusion, and health determinates for sexually transmitted infections (STIs) and tuberculosis (TB) in Arkansas. This focus is particularly imperative given the evidence of increasing burden and worsening health disparities for these conditions. With an understanding of the multilevel and overlapping nature of these epidemics and their social and structural determinates, it is vital for the state to design and implement more effective prevention programs. The goal is to provide a means that will strengthen the way in which health care, public health, and Community-Embedded Disease Intervention Specialist (CEDIS) work together to be responsive to the physical, social, and emotional needs of people within the community. Priority focus will be placed on populations, which include adolescents, young adults, men who have sex with men (MSM), women within childbearing age, and pregnant women.

Community partners are uniquely positioned to complement and extend the reach of STI prevention efforts implemented by state and local health departments. The ADH's goal is to partner with CEDIS for providing STI and/or TB counseling, partner elicitation, partner notification, and other follow-up activities for positive clients. In addition, the CEDIS's aim will be to cultivate, enhance, and maintain a cooperative and effective relationship with health care partners.
