

Acute Coronary Syndrome

Acute Coronary Syndrome® is a practical, hands-on, 8-hour course and is being offered across Arkansas and coordinated by 7 training sites. These classes on ACS care guidelines earn paramedics the ACS credential as well as 8 hours of education credit. While paramedics are the priority group for this class, **Advanced EMTs may also attend depending on seating availability.**

To find the schedule of upcoming classes, please reach out to these training site coordinators:
