Licensure Exam Results 2022 – 2026

Beginning in FY2026, overall program pass rates—including both initial and repeat testers—are calculated in accordance with **ASBN Rules, *Part 127: §17-127-113 Standards for Training Programs***. Overall pass rates reflect the first-time passes + retest passes / total graduates testing within the fiscal year. Any graduates whose initial test is in the next fiscal year are reflected in the total graduates testing within that fiscal year. Any testers who retest and pass in the next fiscal year will not be added to the new fiscal year overall pass rate. The overall fiscal year pass rate is displayed on the top reporting line. The second line presents the pass-rate statistics for fiscal year repeat testers only, while the bottom line reports the outcomes for fiscal year initial testers.
