| This Response Template must be used for submission of written questions. All questions should provide the requested information. Those that do not, may not be answered by ADH. The Vendor may add as many lines as needed. ADH would strongly prefer the Vendor to ask multi-part questions as individual questions on seperate lines. <b>Instructions:</b> Complete all cells of each question asked in the Table below. Clearly identify the referenced section or text. |  |  |  |  |

| Question | Reference (page number, section number, paragraph) | Specific IFB Language                      | Question                                                                                                                                                            | Response                                                                                                                                                                                                                                                                                                                                                                                                                          |
|----------|----------------------------------------------------|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1        | pg. 4 1.9, B, 2.c, ii.                             | Contractor shall bid on estimated quantity | where are actual quantities listed for each waste stream? Are the supplies included and replaced by the vendor at each pickup?                                      | Supplies are included and replaced by vendor at each pickup. Each stream is heavily dependent upon testing needs at the time and prone to fluctuation. It is estimated that of the 2000lbs per month, roughly 500-750 lbs would be non-regulated and the remainder would be made up from the various hazardous profiles with flammable/corrosive mixed streams being the majority source. See questions 5, 7, 10, and 11 as well. |
| 2        |                                                    |                                            | How often are each waste stream picked up?                                                                                                                          | Roughly once every 4-8 weeks.                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3        |                                                    |                                            | Can you provide an estimated anual spend                                                                                                                            | Unsure what question is asking. If they are asking how much we are spending now, we cannot provide that information.                                                                                                                                                                                                                                                                                                              |
| 4        |                                                    |                                            | There is only one line item to price against, yet it states frequent fluctuations                                                                                   | This isn't a question, this is a statement with no prompt on how they would like it clarified. Frequent waste stream changes and volume changes are expected due to the nature of public health testing as each testing method is performed based on current demand. I have done my best to break down this answer in responses to questions 1, 7, 10, and 11 as well.                                                            |
| 5        |                                                    |                                            | Is it possible to breakdown the pricing per waste stream and not a lump sum?                                                                                        | If that is how they would bill it, I would say let them submit it in this format as it most accurately reflects the expected invoices. Just be aware of the information discussed in response to questions 1, 7, 10, and 11 as well.                                                                                                                                                                                              |
| 6        |                                                    |                                            | Are we to wrap transportation, supplies, disposal, and fees into an all in per pound rate?                                                                          | Yes. We are expecting all supplies, transportation, disposal, and disposition fees to be included in this service.                                                                                                                                                                                                                                                                                                                |
| 7        | Bid price sheet                                    |                                            | Can we alter the price sheet to have different per pound rate for different was te streams? For example Non Haz would be cheaoyer than haz                          | See DH-26-0025 Official Bid Price Sheet_Updated 7.8.2026.                                                                                                                                                                                                                                                                                                                                                                         |
| 8        |                                                    |                                            | Is this waste in one site or multiple sites? If multiple locations, can you provide all addresses?                                                                  | All waste is generated in one building location. Waste is removed to a designated pickup location prior to pickup for ease of access and for security reasons. Location is near a loading bay with street access.                                                                                                                                                                                                                 |
| 9        |                                                    |                                            | Can you provide previous year manifest copies?                                                                                                                      | Can we provide our manifests to them? No. Can they set it up so that manifests are delivered to us once a year? If that is acceptable with the EPA and DoT, which I do not believe it is.                                                                                                                                                                                                                                         |
| 10       |                                                    |                                            | Is the 2,000 pounds to include haz waste and non haz waste?                                                                                                         | Yes. The actual breakdown in subject to frequent fluctuations based on testing demand, however we estimate that roughly 1/4 of the ton per month would be from a non-regulated waste stream.                                                                                                                                                                                                                                      |
| 11       |                                                    |                                            | Can you provide the estimated annual volume and pickup frequency for each waste stream listed in Section 2? This information is needed to accurately price the bid. | Each waste stream is estimated to be picked up roughly every 4-8 weeks, though this can be subject to fluctuations based on testing demand.                                                                                                                                                                                                                                                                                       |

|    |  |  |                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|----|--|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12 |  |  | Is there a minimum or maximum drum size requirement for waste storage and transport, or is that left to the contractor's discretion based on the waste stream specifications? | While we are willing to work with the contractor, we do have preference on 15 and 30 gallon drums due to storage limitations within our facility. Should the contractor offer a better solution we would be willing to discuss. Poly drums are a necessity with a strong preference to natural color drums.                                                                                                                                                                                                                     |
| 13 |  |  | Are any additional ADH permits needed beyond an active DOT Hazmat certification to transport the chemical hazardous waste streams listed in Section 2?                        | The selected contractor will be subject to all DoT, EPA, and State/local regulations for the transport and disposition of the final waste. Depending on the jurisdiction of the final disposal location site / company transferred to for final disposal, additional or fewer permits may be required. We are not the regulating body in this matter, and are just attempting to do our due diligence in selecting a lawfully liscensed vendor. We expect the selected vendor to know and maintain all relevant certifications. |
| 14 |  |  | Can the sealed bid be hand delivered to ADH Little Rock on July 16, or must it be postmarked by a specific date prior to July 16?                                             | Yes, the sealed bid can be hand delivered to the security guard at the main entrance to the Arkansas Department of Health.                                                                                                                                                                                                                                                                                                                                                                                                      |
