Standard Operating Procedures for Food Service Establishments

Who must have standard operating procedures?

- All new food establishments, including but not limited to Mobile/Pushcarts, Feeding Programs, Cooking or Prep Kitchens, Concession Stands, Temporary Establishments and Food Trucks.
- Remodeled food establishments that change menu or operation must update and resubmit.
- Establishments using a HACCP Plan or Variance.

What are standard operating procedures?

- Procedures specific to your operation describing the activities necessary to complete tasks in accordance with the food code and Arkansas food law. The procedures are used to train the staff members responsible for the tasks.
- Three purposes for establishing SOPs for your operation are: (1) to protect your products from contamination from microbial, chemical, and physical hazards; (2) to control microbial growth that can result from temperature abuse or poor personal hygiene; and (3) to ensure procedures are in place for maintaining equipment and assisting with Active Managerial Controls within the food establishment.

Why must procedures be submitted?

- Arkansas Food Regulations requires standard operating procedures to be established prior to opening or reopening. These procedures must be maintained in the facility and accessible to the staff and regulatory authorities upon request.

How must procedures be developed?

- Procedures are mostly for use by managers and staff. Develop procedures in the language, style, and format best for the establishment. An English copy of the procedures is needed for the plan reviewer.

What procedures must all establishments submit?

- Handwashing.
- Personal hygiene, including cuts and sores.
- Preventing bare hand contact with ready-to-eat food (gloves, utensils, etc.).
- Employee/Staff illness.
- Purchasing food from approved sources.
- Cleaning and sanitizing food contact surfaces.
- Norovirus Cleanup (*See Regulatory Authority for assistance with approved procedure*)

What procedures must all establishments develop when applicable to their operation?

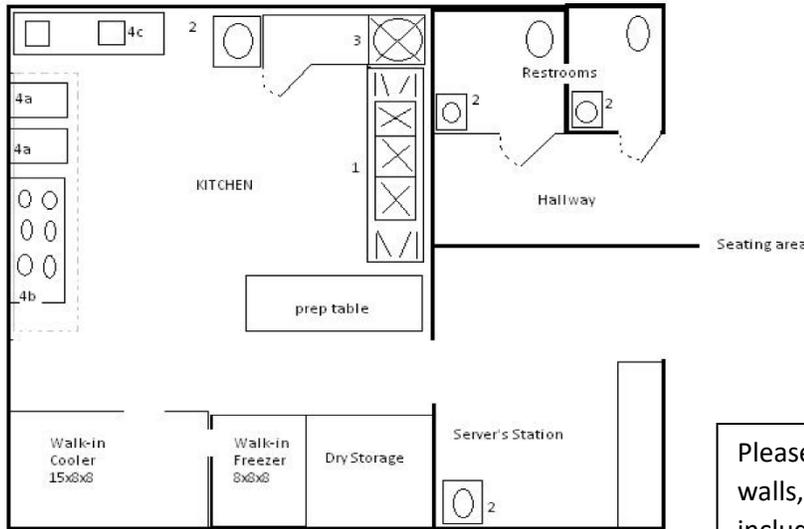

- Cross-contamination prevention within the establishment
- Warewashing manual dishwashing
- Date-marking ready-to-eat, and TCS (time/temperature control for safety food).
- Using time only (not time and temperature) as a method to control bacterial growth.
- Thawing TCS foods (time temperature control for safety food).
- Cooking TCS foods (time temperature control for safety food).
- Cooling TCS foods (time temperature control for safety food).
- Reheating foods.
- Hot holding foods.
- Cold holding foods.

Procedures can be sent with the plans at time of initial review and maintained on-site and used by the person in charge and staff. Technically correct procedures must be in place by the pre-opening inspection.

FOR AGENCY USE ONLY

FOR ESTABLISHMENTS NOT NEEDING RETAIL PLAN REVIEW

I have reviewed the paperwork submitted, have had conversations with the prospective new operator related to their intended food preparation practices and menu, and/or have current working knowledge of the condition of this facility. It is my recommendation that this facility does not need to go through a Retail Plan Review.

DISCLAIMER: A person may not operate a Food Establishment without a valid Permit issued by the Arkansas Department of Health (ADH). I understand that I must contact the appropriate ADH representative to schedule a pre-opening inspection. Once the pre-opening inspection is conducted, and the inspection is satisfactory, a permit will be issued. The permit must be displayed at the food establishment in a location that is conspicuous to consumers. This permit shall remain valid until expired, suspended, cancelled, revoked, or unpaid. An annual fee will be billed and due upon receipt. Permits are not transferable to new owners or new locations. ALL FEES ARE NON-REFUNDABLE.

STATEMENT: I hereby certify that the above information is correct, and I fully understand that any deviation from the above without prior permission from this Health Regulatory Office may nullify final approval.
